

# Christian Doppler Lectures

Thursday, 27 March 2014

4.00 pm – 5.30 pm

**Professor Xile Hu**

**École Polytechnique Fédérale de Lausanne (EPFL), Switzerland**

Title: *“Earth-abundant inorganic catalysts for electrochemical and photoelectrochemical water splitting”*

**Professor Sascha Ott**

**Uppsala University, Sweden**

Title: *“Mechanistic aspects of H<sub>2</sub> evolution catalyzed by hydrogenase mimics in homogenous and heterogenous systems”*

Wolfson Lecture Theatre  
Department of Chemistry  
Lensfield Road  
University of Cambridge

**!!All Welcome!!**
